

This week we have continued reading 'Winnie's haunted house' and the children have learned all about doing words (verbs). We have been answering questions about the story and continuing to practise our sentence formation and handwriting.

In Maths, we have been focusing on shape. We have looked at 2D and 3D shapes, discussed their properties and continued to work on our mental maths skills.

For homework this week we would like children to write a short description of Winnie's haunted house (below).
